**KASARMIKATU 21 COMPLEX WILL SOON BE FULLY LET**

The project, which is conducted in collaboration with Ahlström Capital, HGR Property Partners and YIT, is proceeding on schedule. One of the aims of the Kasarmikatu 21 project is to enliven the Kaartinkaupunki district, and the lower storeys of the building have already risen on the side of the site facing the Kasarmitori Square. In addition to the office premises, there will also be a space for a restaurant at the ground floor of the building.

Danske Bank has concluded a long-term lease for premises in the new office complex, and will move its divisions serving large businesses and institutional customers as well as its Helsinki private banking branch to the new Kasarmikatu 21 building on the corner of Kasarmitori Square at the end of the year.

This new office building has been almost entirely let. Besides Danske Bank, the Kasarmikatu 21 will also house e.g. Roschier, Attorneys Ltd. Zipuli Oy, the parent company behind the nearby Juuri restaurant establishment, will take charge of catering and function room hiring operations in the office building. Kasarmikatu 21 complex is estimated to be completed by the end of 2017.
